

TWA-10B

**AUDIO**  
Video

15-September-2022

A very good review of our TWA-10B network streamer by "AUDIO Video" (02-2022).

*In terms of sound quality, it is difficult to rationally criticize this player - also because it has no direct rivals, apart from the currently unavailable Yamaha WXAD-10.*

*TAGA offers fatigue-free sound with the correct balance of registers, nice stereo image, sufficient precision and dynamics.*

More information about the TAGA Harmony brand and the products is available at [www.Tagaharmony.com](http://www.Tagaharmony.com)
