

04-April-2022

BEST BUY and 5 STARS for our PF-1000DC power noise filter with DC blocker by “hificlass” (04-2022).

PROS: A fairly priced product, solidly built, many outputs, a positive impact on the sound quality, especially in the high and mid frequencies, as well as in the reproduction of sound space

CONS: To use the full potential of this power strip, we should invest in higher quality power cords (*)

TOTAL: Works well in protecting your audio system against surges. In addition, the TAGA Harmony filter strip is able to significantly improve the sound of both affordable and mid-priced audio systems

(*) We recommend our power cables from the TPC and ETPC series.
